

In the Claims:

1. **(currently amended)** A tray, comprising a non-tapered cavity with a rib protruding into the cavity, wherein said cavity is substantially symmetrically open-ended at both ends, wherein said tray and said rib are constructed of a substantially rigid material, and said tray and said rib are constructed of a continuous piece of material.
2. **(previously presented)** The tray of claim 1, wherein the tray comprises of a plurality of said open-ended cavities.
3. **(original)** The tray of claim 2, wherein the cavities are of uniform size and shape.
4. **(currently amended)** The tray of claim 2, wherein the cavities are of a shape selected from the group consisting of: (a) Polygons; (b) Ovular; (c) Circular; and (d) Non-angularly shaped objects.
5. **(previously presented)** The tray of claim 1, 2, 3, or 4, comprising a plurality of ribs protruding into the cavity or cavities.
6. **(original)** The tray of claim 5, wherein the ribs are of uniform size.
7. **(canceled)**
8. **(original)** The tray of claim 5, wherein the ribs are evenly spaced.
9. **(previously presented)** The tray of claim 5, wherein the ribs are positioned around the cavity or cavities at intervals.
10. **(previously presented)** The tray of claim 5, wherein the ribs are longitudinally positioned along the walls of the cavity or cavities, parallel to the walls of the cavity or cavities.
11. **(previously presented)** The tray of claim 10, wherein the ribs extend along the entire length of the walls of the cavity or cavities.

Claims 12-24 (canceled)
